Continuation of Substance of Interview including description of the general nature of what was discussed: Ms. Macintyre alerted the examiner of using form PTOL-326AE instead of PTOL-326 in the office action requiring restriction and election of species that was mailed 12 April 2007. The examiner acknowledges this was unintentional but the content of the office action is still valid and application 10/788884 is not an application under accelerated examination.
